An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Anthony G. Sitko on 12/7/07.

The application has been amended as follows:

***In claim 55, line 11***, "at least one" has been deleted and replaced by ---a---;

***at lines 12-13***, "regions between maxima... modulated signal" (inclusive) has been deleted and replaced by ---and a less than infinite slope---.

The examiner notes that the above amendment is made to distinguish the claimed test signal from a "square wave" test signal having a substantially vertical. i.e., infinite, slope, which is disclosed by the prior art.
